this book unearths the experiences of and attitudes about children and youth during the decades following the american
revolution beginning with the revolution itself the book explores a broad range of topics from the ways in which american
children and youth participated in and learned from the revolt and its aftermaths to developing notions of ideal
childhoods as they were imagined by new religious denominations and competing ethnic groups to the struggle by
educators over how the society that came out of the revolution could best be served by its educational systems rooted in
the historical literature and primary sources the book is a key resource in our understanding of origins of modern ideas
about children and youth and the conflation of national purpose and ideas related to child development

no group of american minority voters shifted allegiance more dramatically in the 1930s than black americans did up until the new deal era blacks had shown their traditional loyalty to the party of lincoln by voting overwhelmingly the republican ticket by the end of f d roosevelt s first administration however they tremendously voted the democratic ticket the decades long wholesale attachment of blacks to the party of lincoln with its laudable efforts to support blacks emancipation proclamation and reconstruction was understandable and inevitable enough the anomaly was the massive shift by blacks to the democratic party traditionally identified with its long list of constant anti black and premeditated opposition to black liberation opposition to emancipation and reconstruction and with an ongoing record of all forms of racial discrimination segregation disfranchisement exclusion white primaries and white supremacy the transformation of the black vote from solidly republican to solidly democratic did not happen instantaneously but rather it developed over decades of maturing as a result of the amalgamated efforts of presidents and black leaders the move of black voters toward the democratic party was part of a nationwide trend that had occurred with the creation of the roosevelt coalition of 1936 this national shift would make the democrats the majority party for the next several decades including a very decisive margin of black voters in the balance of power
